2.

The dowels used are different sizes. Make sure they go into the correct holes.

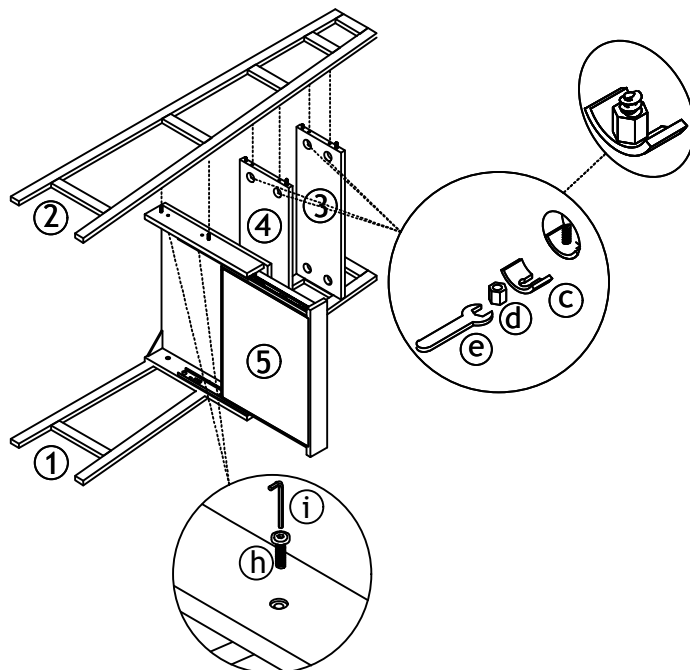

3.

To ensure correct orientation for shelves, the dowels must match up to correct size hole on sides.

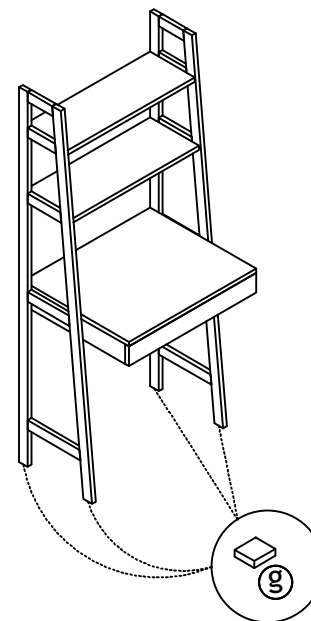

4.

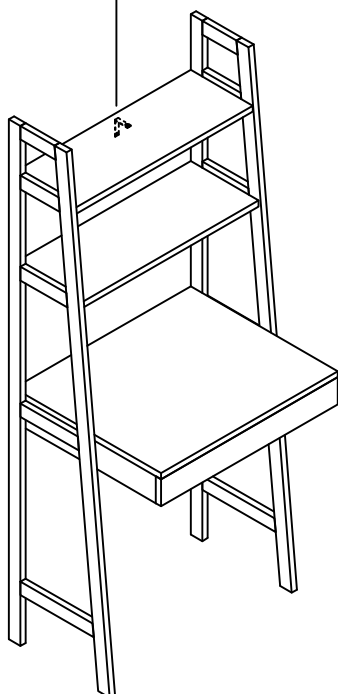

To ensure correct orientation for shelves, the dowels must match up to correct size hole on sides.

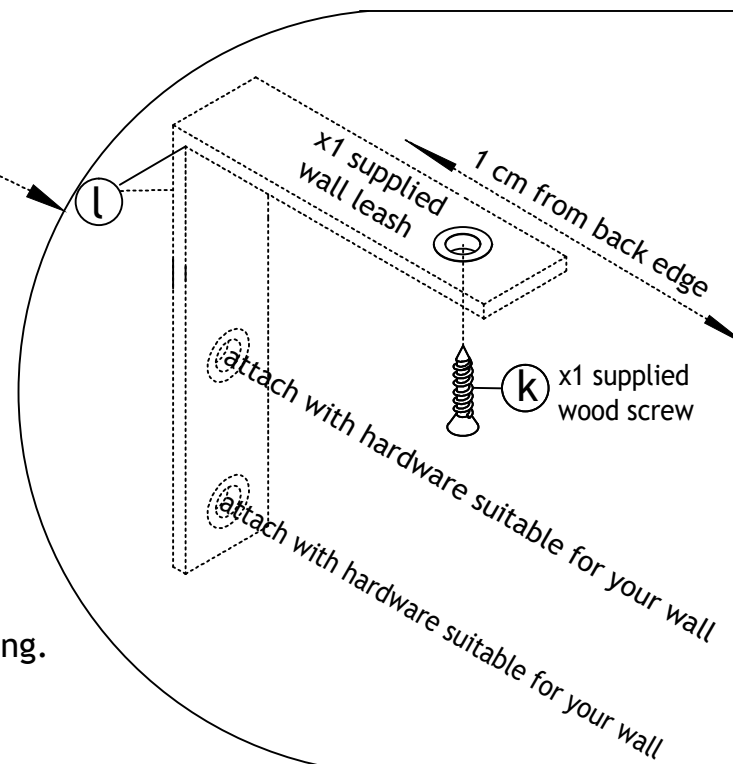

5.

IMPORTANT! a wall leash must be used with this product

1. Before moving the unit into place establish the correct height to attach the 'wall leash' to the wall.
2. Attach the two hole end of the leash to the wall with hardware suitable for your wall.  
Screw fixings to attach the leash to the wall are not included as different wall materials require different types of fixing. Contact your local specialised hardware store for advice on suitable fixing.
3. Move headboard into place and attach the one hole end of the leash, with the supplied wood screw, to the underside rear of shelf part 3.
